ORDER

11 MICHAEL LEE DOMINGUEZ,)
12 Defendant.)
13

14 Attached to this Order is a copy of a one page letter dated December 17, 2013,
15 addressed to The Honorable Lloyd D. George, Senior United States District Judge. Also
16 attached is a twenty-six page Declaration by Mr. Dominguez dated January 4, 2012. The
17 attached documents have been forwarded to the undersigned for consideration as Mr.
18 Dominguez' case is assigned to this Court.

19 Approximately one year ago, the Court received a letter from Mr. Dominguez
20 related to this case. At that time, the Court ordered the letter forwarded to the United States
21 Attorney's Office for the District of Nevada for such action as they deemed appropriate (see
22 Doc. #158). As this Court has no independent ability to act on the matters referred to in Mr.
23 Dominguez' letter, the Court will follow the same procedure here.

24 **IT IS THEREFORE ORDERED** that the attached letter from Defendant
25 Michael Lee Dominguez dated December 17, 2013, and the attached Declaration dated
26 January 4, 2012, shall forthwith be referred by the Clerk of this Court via electronic filing

1 and also by United States Mail to the Office of the United States Attorney for the District of
2 Nevada for such action as they deem appropriate.

3 **IT IS FURTHER ORDERED** that a copy of this Order shall also be sent by the
4 Clerk of Court to Defendant Michael Lee Dominguez at his current address, D89394, D-20-
5 145L, R-J Donovan Correctional Facility, 480 Alto Road, San Diego, CA 92179.

6 DATED: January 15, 2014.

8 PHILIP M. PRO
9 United States District Judge

12-17-13

Dearest Judge George,

In reference to: The prosecution's witness Michael Lee Dominguez in regards to the Neil Woodman trial and Steven Hornick trial convicted at trial.

Dear Judge I would like to speak with the Court and Mr. Woodman and Mr. Hornicks attorneys in regards to the Woodman murders were Stewart Woodman solicited the murder of his parents, hereafter framing his older brother Neil Woodman for the murders. In regards to Hornick I would like to speak to the Court and Mr. Hornicks attorney in regards to the Tipton murder and Godfree murder and Woodman murders, in addition to an other murder off the record. Also I would like to speak to the Court in regards to prosecution witness Timothy Catt and Ronald Brui, and LVMP police detectives Tom Dillard and Robert Leonard.

Also Judge George I am sure you recall this statement you made to me at the Steven Hornick trial: Mr. Dominguez if I grant you immunity...if. Judge for a long time I wondered how you knew what my intentions were at the Hornick trial, the step you took to protect the prosecution in case I testified, I've enclosed a ~~test~~ other declaration 26 pages please forward it to the prosecution and make it part of the record. Michael Lee Dominguez

Declaration.

Michael Lee Dominguez declares that the California Department of Corrections is presently and unlawfully subjecting him to involuntary enforced interference with his thought process and state of mind, by forcing upon him a National Security embody Cellular Telephone Microchip, that enables electrical Cellular Visual and electrical Cellular Verbal Communication to and from his body via Cellular transmission, regardless of his area of location.

The National Security embody Cellular Telephone Microchip was administered to Mr. Dominguez by a hypodermic needle injection under the Skin. At first at the beginning it was enforced upon me in the Clark County Jail, in Las Vegas Nevada, under the heading of a flu shot inflicted upon him, next during a phony fraudulent tuberculosis shot inflicted upon him in the California prison system.

The nanotechnology microchips are transferred to a hypodermic syringe which contains the nanotechnology Microchips, which are injected into the Skin.

The nanotechnology Microchips are transparent and are about 100 nanometers, there designated to interact with the electrical system of the bodies nerves, and taps and extracts the "electrical impulse Current wave" of Mental Conscious, converting the -

electrical impulse current wave of mental conscious
into electrical signal waves, and transmitting them
to a telecommunication system.

The schematic diagram as defined by me, noted I am
not an engineer but the correlation between the
two are quite correct.

○ ← Plutonium chip input battery power source.
 On the inside of the plutonium chip are Microscopic Integrated Circuits →

Plutonium: plutonium has various applications for example Pu-238 powers pacemakers, plutonium is highly poisonous because it rapidly gives off radiation in the form of high energy alpha particles these particles may cause cancer or other serious health problems.

Microcontroller: a device when activated automatically -

dials a preprogrammed number.

Integrated Circuit: is a tiny chip of semiconductor material that contains a complete electronic circuit, one integrated circuit can do the work of thousands of individual electronic components.

Antenna: is a component that can both receive waves and radiate transmit electrical signal waves.

Duplexer: a device which by using the transmitted pulse automatically switches the antenna from receive to transmit at the proper time.

Prisoner or freed prisoner on parole
with a National Security embody
cellular telephone microchip
transmission electric human wave
out of the body via cellular transmission
to a cell site or transmitted to a satellite
communications system

with a electronic surveillance telecommunication system it links the prisoners human bodies ~~nerves~~ together with a telecommunication system, and transmits the prisoners electrical current mental conscious wave to CDC employees.

In other cases it transmits the targeting persons electrical wave to an outside entity.

Example, when you goto the doctor and they put that finger clamp on your finger, this finger clamp withdraws retracts the electrical wave of the oxygen level in your body, the machine interprets this wave.

See its not so farout that its beyond being possible.

One may ask why haven't I heard anything in regards to this subject? Why because the records are silent on the subject, the U.S. government agencies drafted law limiting research securing the highest secrecy secret with law constraints on restricting microwave research in regards to the mental conscious electric wave, the human electric wave that represents human conscious is privileged information.

The act of searching in search of trying to find information is nonexistent, because the information is withheld because the information is "privileged information" not recorded in documents, the government in secret put it into hiding through privileged information and the government operating secretly is not willing to share it with society.

Well informed, current waves, television has audio visual carrier waves using both sight and sound, theres the traditional FM-waves, AM-waves, theres satellite transmission waves for cellular phones, the list goes on. This matter of interest concerns only the electrical impulse current wave of mental consciousness.

Behind the scene in great secrecy the government uses this technology for prison management. and to monitor society and for surveillance over seas.

Additional insight the CIA's Secret overseas prisons imprisoned Terror Suspects which the CIA subjected these prisoners to this technology, the prisoners are unaware they been subjected to this technology. al-Qaeda and Taliban fighters captured in Iraq and Afghanistan are flown to the U.S. Naval base at Guantanamo Bay Cuba, which these prisoners unaware behind the scene are subjected to this technology. The CIA detainee interrogation practices are a farce designed to openly create drama of the powerful effect of beatings, water boarding, this drama offered a motive for the other prisoners to believe that one of their own told on them. And it encourages the prisoners to report tell of detainee abuse, the significance is to create a delusive impression because the prisoners are unaware they have been subjected to this technology, and the "farce" is through the beatings is how they get information. The U.S. government would capture as many prisoners as possible and subject them to a National Security whereby Cellular telephone microchips and release them hoping one day it would lead them to Osama Bin Laden, once located in Abbottabad Pakistan the United States government got a doctor Dr. Fridi in the area of location of Osama Bin Laden whereabouts to Vaccinate as many people as possible with the T.B. Vaccination hoping to penetrate Osama Ben Laden's family. It took the —

U.S. about 10 years to capture and kill Osama Ben Laden because all the captured prisoners Zaccarias Moussawi plus the rest of the detainees didn't ^{know} ~~know~~ where Osama Ben Laden was, the CIA micro chipped detainees and released detainees watched and waited hoping one day it would lead to Osama Ben Laden's carrier and the carrier would lead them directly to Osama Ben Laden.

The drone a remote controlled pilotless aircraft, captured detainees who were released, when there in a home or driving in a car down the road the drone will kill them with a missile strike.

Military forces captured Saddam Hussein, hereafter the CIA in a top secret event subjected Saddam Hussein to this technology, Abu Ghosib prison inmates were subjected to this technology.

+ Over again invisibility needfully needed to see the nanotechnology microchips is a scanning tunneling microscope or a electron microscope which can magnify them one million times to see them, its like finding a needle in a haystack, pointed out pay attention it will not show up on x-ray or on a MRI.

This is not some announced scientific theory put forth nor am I seeking experimental confirmation

Viscera: definition the interior organs in the great cavities of the body, brain, liver, abdomen and kidneys.

An extremely Savage wicked and an evil cruel act, Prison officials if they chose they use the nanotechnology Microchips to be the cause of cancer, prison officials caused the nanotechnology Microchips to cause damage to cells in my body purposely harming healthy cells, they purposely damaged my blood forming cells which lead me into being anemic.

Prison officials has given me multiple Staph infections the nanotechnology Microchips cause small pin-holes in the tissue under the skin to bleed from which then developed leads into a Staph infection I underwent surgery for a Staph infection hole in my flesh 8 inches and another hole in my flesh 5 inches. I've been hospitalized about 5 times for Staph infections.

Prison officials with the nanotechnology Microchips destroyed health tissue which lead into Intestine cancer from which I again underwent an operation, surgery and was hospitalized.

Prison officials with the nanotechnology Microchips gave me Hodgkins Lymphoma cancer infiltrating the lymphatic system which lead to Hodgkins Lymphoma cancer, again I was hospitalized and under went cancer treatment chemotherapy for years The nanotechnology Microchips are responsible for all my health problems.

The Murder is Committed by the nanotechnology Microchips in the Blood in the lymphnodes. The Blood Cells try to Kill the Microchips and the white blood cells subsequently collect and gather into a crowd and mass in the lymphnodes, which leads to lymphoma; and they will literally murder you. What they're trying to cause me in addition to the misery already imposed upon me is ~~cause~~ Colon Cancer and Cancer in the urinary system the prostate. Comprehensive awareness true example. The inmate reports experiencing pain or burning during urination flow, in addition he needs to urinate "frequently", these symptoms progressed have the same characteristic as kidney disease but the diversion complications are brought on by the nanotechnology Microchips transmitting impulses into the urinary nerve and interior urination flow duct viscera. Once the diversion is established the nanotechnology Microchips in the viscera duct, viscera highway and the Microchips embedded in the kidneys and liver shut down kidney and liver functions. Unobserved and sneaky prison officials the helmsman monitoring the unaware inmate for the underline purpose to have the inmate acknowledge the kidney disease, the inmate is unaware of what is -

happening to him. Thereafter prison officials murders the inmate by shutting down the inmates kidneys electrical function and liver's electrical function. And the kidneys become gradually destroyed, they cripple your kidneys organs.

The nanotechnology microchips are in the parasympathetic nerve unknown to some inmates prison officials transmit to the nerve an electric impulse to the parasympathetic nerve and it causes a discharge of semen fluid and causes an erectile state of the penis.

I have been suffering the anguish of these issues for years, and noted for the reader I have no family history of cancer in my family. On both sides of my family we have longevity, on my mother's side of the family her aunt is 96 and uncles are 84 through 92.

Medical service prison doctors on my health care examination purposely and deliberately let my health issues go untreated purposely wanting me to -

Suffer deliberate pain and mental anguish prison medical staff will only give me medical care when it becomes obvious its an extreme emergency and will cause premature death and gross negligence is obvious.

Prison medical doctors excellent excuse they excuse themselves by making specific categories telling me that my brain produces to much dopamine which causes an severe mental illness called schizophrenia, this excess of dopamine creates emotional disturbances and causes a person to see things and hear sounds that do not exist. Prison medical doctors unwillingness and refused to give me a medical examination procedure of tests examining the dopamine level, this test would give an exact description of dopamine level. Prison medical doctors claim of to much dopamine in the brain is a visible lie and is an intentionally false statement, tests would give a second opinion and rectify correct their lies.

The prison counselors goal is to have the prison doctors murder me. No notification of death to my Parents, and the prison counselor will have the local Mortuary cremate the evidence in Mr. Dominguez's body. CDCR counselors, prison officers and medical staff in silence their scheme deceitful plot is to scheme Mr. Dominguez's downfall, their an patrol planning ready to fuck me over anyway and everywhere they —

give me wrong answers, they give me wrong directions, the doctor gives Mr. Dominguez incorrect results and leads Mr. Dominguez astray, their achieving purpose is to fuck me off.

A disturbing effect the Counselor lied deliberately sabotaged Mr. Dominguez's parole board hearings the Counselor details to the parole board of Mr. Dominguez's conviction was deliberate sabotage which generated many unmanageable problems for Mr. Dominguez, an instrument for determining whether the Counselor offered an intentional false statement is in the conviction transcripts of the Court. There's many more deliberate sabotage lies the Counselor forced upon Mr. Dominguez.

National Geographic June 2006 page 98 gives an introduction into nanotechnology it begins "a nanometer is one billionth of a meter, that's like comparing the size of a marble to the size of the earth, welcome to the world of nanotechnology." Page 101 clearly shows that nanotechnology microchips can go through a hypodermic needle, page 103 states the U.S. government allocated more than a billion dollars to nanotechnology research in 2005, on page 108 it speaks of a government lab in Maryland. The article is basically about nanotechnology injected in -

the bloodstream to fight cancer.

+ However logically the government is about 30 years a head of the general public in technology of what they acknowledge to the public.

Great emphasis is placed upon being absolutely honest, pointed out my position from inside the smoke screen created a complex history, as illustrated I can't go to a college, university or public school or library or research center to do my homework and put things in context. Recognize the larger picture the public is uneducated in regards to this topic, true there is no literature to describe the event, unfortunately there is nothing wrote on the subject to do your homework study up and learn that would result in a fuller understanding to come to know the truth. Confronted with hard questions I don't hide, opponents of me held belief this is impossible. Detective work can confirm the U.S. government uses privileged information to hide secrets under government control, worthy of attention historical documentary films teaches us a lesson that the government concealed technology and removed it from public knowledge.

+ Logically the government is about 30 years a head of the general public in technology of what they acknowledge to the public.

In the Sacramento Bee Saturday June 3, 2000 page B7, there was an article that came out titled "Story of plutonium testing stretches back over 40 years", article by Linda Seebach reporting writes for the Denver Rocky Mountain News this article was distributed by Scripps Howard News Service Eileen Wellcome reported story is about how Americans were used as laboratory animals in radiation experiments funded by the federal government, the article is enclosed.

They tap the inmates human Mental Conscious the bodies electrical network, and the Co's in the facility see, hear everything that is happening in the prison. The Co's clear across the yard are on line with an inmates Mental Conscious unbeknown to the inmate.

Up at another prison, prison staff monitors, by via cellular transmission transmitted an electrical impulse message to an inmates subconscious nervous system of an mental obsession to murder his cellie, oblivious unaware and unknown to the inmate he is being manipulated like a garage door. Guess what at this particular time during the occurrence of the murder, cunningly the Co's are absent from the floor, absent from there assigned responsibility to be on the floor to give aid to the victim, the Co in the tower has the tower dark and curtains shut. After the inmate is murdered the Co's respond and make there appearance with a phony concerned face. Hereafter shocking news the heavy gun Lieutenant or Sergeant will immediately preach in the report the Co's who's responsibility are to be on the floor, justification of facts support the Co's that were suppose to be on their assigned post the floor were detached to protect the other side of the prison, and were doing something else to support life in there official duties. Then the writer will emphasize his influence thrashing the inmate that killed his cellie,

then Maracklously Shocking news the Lieutenant at the steering wheel will usher in resign the same Co's to the same post! How's that for bragging about a job.

Alert based on 50 years of prison Customary ways an inmates thoughts are the Co's are stupid while the true Cover story is the Co's getting staff they dont give a fuck if you use the Customary art of inserting, sticking dope up your ass and bring it into the prison, this same shit has been going on for 50 fucken years; the Co's dont give a shit about the Wine Makers, also I bring it to your attention these same standard of wine making practices have been going on for 50 plus years, the inmates psychological imaginary plan I have an excellent plan...!

The Relationship to the truth is the Co's allow you to do this and yes only a fool would be amazed at this revelation.

All also Shine the light on another thing, the prison System has a blank check to carry out tuberculosis shots, during the heading of a false tuberculosis shot in the same syringe they also Subject the inmate to a radioactive plutonium which creates the problem and Causes health problems, different health problems for different inmates, this plutonium will stop the energy -

Current to one of your organs and that organ will die - "Stop functioning", they steal Choke off the electrical current to the organ and deprive the organ of its electrical current; As the inmate gets older in the prison system there's a big big chance he will end up with Cancer, some man made Cancer ... free health care service. Realize this the prison system is not an old man's nursing center, and as for you young lips your file has been reviewed and the counselors and prison staff have already decided who will die from cancer, the clock is ticking down upon you! The reality is there is a big rise of cancer diagnoses of inmates in the prison system, cancer causing death.

Another thing the inmate needs to know while the Co's are busy laughing and playing their being entertained by an online monitor, this is the joyride of working in the prison. The only thing the Co's care about is they continuously throughout the day monitor the inmates for warnings if the inmates have plans to assault them. If this happens prison staff will say some rat sent in a note stating staff was to be assaulted, hereafter, prison staff officers will lock down the prison, then during the lockdown period the officers will continuously monitor the inmates plans and keep the inmates locked down. on lockdown the inmates will change their minds and cancel the plan, then

Soon after prison staff will release the inmates back to the yard. This is the only thing they care about what's going to assault staff.

If the inmates get's plans to attack other races of inmates, prison staff will still open the yard this they don't care about.

When it comes to the Co's its all about the joyride, Sunshine, Money and they don't want to be disturbed, as you know they have there wives daughters and mothers working here.

The Co's Make more money than a school teacher and retire with a pot of gold.

Another thing the inmates need to know when in the building, when theres a code in the building and the Co's run into the building and go in the wrong direction and ask were the fight, this is done purposely, there indoctrinated to act stupid because stupidity never draws suspicion, it psychologically draws laughter. Its the governments rules of engagement for maneuvering strategies to protect the technology.

Spontaneously there are Co's that get there all kicked, but this is Spontaneously, all know a Co -

thinks there appointed to tell jokes, and when an inmate ignores them and don't laugh the Co gets perturbed and I've seen this escalate into an altercation.

Money talks bullshit walks after your dead the prison will have the bodie burnt, cremated, therefore down the road when this technology comes into the public's hands, your loved ones can't extract the body to have it tested, and there is "Zero" law suites down the road.

I have explained the existence of a National Security embody mobile phone "Nanotechnology" and I have described the work of prison staff that affects the feeling, emotions and desire of inmates, educate yourself on the subject or choose to believe what's indoctrinated into your belief.

Also when the Co's are under investigation for prison abuse they will monitor the inmates legal work and know all the questions they are to be asked in court, they will delay the case until they got all the probing questions worked out and there are "No" loaded tantalizing questions in the courtroom there not prepared for, basically the Co's testimony is prepared testimony.

When they transport the inmate to the courtroom or a doctors visit there in the inmates mind, provided -

are also subjected to this technology and are deployed to the streets to catch criminal activities unknown to the parole he is a walking talking recorder. Be vigilant.

Yes, on the red carpet the CO's use hand held radios to call for the inmates to report to Chow, don't be a fool and let them fool you, yes, they use the ringing of the phone for an inmate to report to visiting, yes they use basic communication between the floor CO's and the tower. But behind the scenes the show goes on. The new reality nightmare your consciousness is online live. I've learned from hard experience.

As easily understood I make myself clear. Via Cellular transmission the monitor communicates his thoughts and desires via cellular transmission, transmitting signals to the microchip in my body, the microchip converts the transmitted signal into an electric impulse which stimulates the nerves, the nerves online the nerves responds to the electrical impulse, transmitting passing the impulse signal to the brain.

Remarkable you can perceive the signal, and they can perceive the return signal, you can hear sound impulse waves, you can see the

Computer screen which is visual in the electrical pathway of the human eyes optic nerve which passes them to the brain. They can transmit to you a movie like you see it on a big screen television.

Unmistakable this is called Virtual Reality.

The center of control revolves around the monitor, when you're speaking they can transmit to you a signal and what's enclosed in the signal (you speak it) logically it's simple there in your nerves. If you don't know this technology they can mimic the person's voice down the tier, and all of a sudden you hear a dude's voice and you think he's talking about you, then you're in a fight. Unaware of what's happening to you the monitor will destroy you, he will try to bring disastrous consequences upon you in every aspect of your life. The monitor will send you a signal that will keep your life in disarray. Some people think that aliens or the dead or an evil spirit or Barack Obama is communicating to them, some people think that their house is bugged, voices coming from the walls, it's real to their senses unlimited scenario.

Most common side effects Kiddy, liver cancer

a rash, bumps on the skin like small pimples.

Names of inmates that are forced to endure this technology:

Robert Radish E-37556

Ronnie Mozingo D-63489

Jerry Gutierrez H-34791

Norman Mitchell A-70758

Robert Kee E-07990

Keyen Howard

Brian Snake

awareness, on the streets there's an organization called people against human rights abuse, Charles Walsh's organization. Hear the stories of the people that belong to this organization.

There's a secret police entity operating in secret targeting these people.

The ugly nasty reality is now many people would be alive if the government told the people of this technology. Online I heard stories of inmates getting out of prison and committing murders controlled like a garage door.

Story of plutonium testing stretches back over 40 years

By Linda Seabach

Elmer Allen's tombstone in Italy, France, marks his divided life.

From Jan. 26, 1911, to July 18, 1947 he was Elmer, husband of Freda and father to Elmerina and William. From July 18, 1947, until June 30, 1991, he was T-3, one of 18 people injected with plutonium in a secret government research project that began in the closing days of World War II.

When Welsome, then a reporter for the Albuquerque Tribune, began investigating the plutonium story in 1987, when she came across a reference to it in a footnote to an article in an obscure journal.

But the subjects were identified only by their code numbers. Over time, Welsome pieced together details of their lives and their medical histories. Without their names, though, a 40-year-old story was hardly news. "We hired Welsome's author told her.

Finally in July 1992 she noticed a passing reference to the small town of Coal, CALIF. She called Italy City Hall and discovered the man she wanted to meet, an African American, about 80 years old who had lost his left leg.

"I wrote nothing for Elmer Allen," she said. "But he died a year ago. Do you, of his wife, number? The story had

come to life. Using the Freedom of Information Act, Welsome was gradually able to pry additional information out of the Department of Energy, which has inherited responsibility for the nation's nuclear research. By the time the Tribune published the story, some 16 months later, Welsome had identified five of the 18 subjects.

Making a virtue of necessity, the then-Secretary of Energy Hazel O'Leary called a big-deal press conference Dec. 7, 1993, to announce a new policy of "openness" and publicly released voluminous records of radiation research on human subjects, including material that the Tribune had been seeking for months.

"Of course O'Leary would want to release it to the most powerful media," Welsome said recently in Denver, "but I was getting beat on my own story."

After the press conference, O'Leary spent weeks giving interviews, but Welsome was "way down the list."

Welsome, who now works for Westword, won the 1994 Pulitzer prize for national reporting. In a new book, "The Plutonium Files," she has told the story of the plutonium experiment and set it in the larger context of America's Cold War research. As she sums it up, "Thousands of

Americans were used as laboratory animals in radiation experiments funded by the federal government.

Many of the subjects were not asked for their consent or given accurate information about the nature of these experiments. Some didn't learn they or their loved ones had been used as guinea pigs

human experiments without the subjects' informed consent was wrong.

When an advisory committee established after O'Leary's disclosures submitted its final report in October 1995, President Clinton said some of the tests "were unethical, not only by today's standards, but by the standards of the time in which they were conducted. They failed both the test of our national values and the test of humanity."

But even much later, researchers the subjects wouldn't find out what had happened to them. In 1967, there was an accident at Rocky Flats, a weapons plant outside Denver that manufactured the triggers for thermonuclear weapons. An official from the Atomic Energy Commission called Patricia Durbin, a biophysicist at Berkeley who had worked in one of the laboratories studying radiation. She was able to find that several of the plutonium patients were still alive.

At the time they were chosen for the experiment, she explained in a 1969 letter to a hospital administrator, they were not expected to live long anyway. But some were misdiagnosed, Durbin wrote. "As a result, the human data thus obtained was classified Secret, and so it remained for some years."

Durbin passed along her information

ScriptSpecial to The Bee

until 1994 or 1995. Some still don't know, and never will."

Even in the 1940s most researchers should have known that conducting

to Robert Rowland, director for the Center for Human Radiobiology at Argonne National Laboratory, and the center began follow-up studies.

"Please note that outside of CHN we will never use the word plutonium in regard to these cases. These individuals are of interest to us because they may have received a radioactive material at some time in the kind of statement to be made, if we need to say anything at all."

Elmer Allen agreed to participate in the follow-up study in 1973.

With the government paying all the expenses, he and his wife took a train to Chicago, where tests were done on him at Argonne, and then went on to Rochester, N.Y., to Strong Memorial Hospital, where many of the injections had been done. "My mother thought this was big stuff, coming from Italy Texas," recalled Elmer's daughter, Elmerina. "She thought she was the queen of England. It wasn't like they said, 'We're testing you guys because we injected you with plutonium.' " Eventually 17 of the 18 plutonium patients were identified. "They were vulnerable, humble people, not likely to ask questions," Welsome said.

Fortunately Welsome asked the questions, and she kept asking until she got the answers.
